

include/duffy/EuropeanOption.hh

```
graph TD; A[include/duffy/EuropeanOption.hh] --> B[cmath]; A --> C[string];
```

A diagram illustrating the dependencies of the header file `include/duffy/EuropeanOption.hh`. The header file is shown in a grey box at the top. Two blue arrows point downwards from the bottom of this box to two separate white boxes below it. The left box is labeled `cmath` and the right box is labeled `string`, indicating that the header file includes these two standard library headers.
